

ACSP-ETH

ETHERNET COMMUNICATION MODULE

The **ACSP-ETH** module enables the remote preview of the fire alarm system status using a mobile device or a computer. It is an optional element of the **ACSP-402** addressable fire alarm system.

- preview of the fire alarm system status in the **VIRTUAL APSP** app
- fire alarm system events and status notifications via e-mail messages
- presentation of the fire alarm system status in the **INTEGRUM** app
- capability to synchronize time with the NTP time server
- ethernet connection
- RS-485 port for connecting to the **ACSP-402** control panel / **APSP-402** repeater panel
- 12...18 VDC power from the **ACSP-402** control panel / **APSP-402** repeater panel

TECHNICAL DATA

Current consumption	35 mA
Operating temperature range	-10°C...+55°C
Weight	25 g
Maximum humidity	93±3%
Dimensions	61 x 51 mm
Power supply voltage	12...18 V DC
