

SP-500 R

OUTDOOR SIREN WITH OPTICAL AND ACOUSTICAL SIGNALING

SP-500 is an acoustic and optical siren designed for outdoor mounting, equipped with bright LEDs and a piezoelectric transducer. There are 3 types of modulated sound signals with 120 dB intensity. The device comes with tamper protection against opening or tearing off the wall. The impregnated electronics system is immune to the effect of environmental conditions. The enclosure made of polycarbonate ensures high mechanical strength and aesthetic appearance of the device that remains unchanged despite the passage of time.

- acoustical signaling: piezo transducer
- optical signaling: ultra bright LEDs
- tamper protection against opening and removing from mounting surface
- available also in blue (**SP-500 BL**)

TECHNICAL DATA

| | |
|--|-------------------|
| Environmental class | III |
| Enclosure dimensions | 300 x 195 x 97 mm |
| Operating temperature range | -35...+55 °C |
| Average current consumption (acoustic signaling) | 250 mA |
| Average current consumption (optical signaling) | 35 mA |
| Weight | 651 g |
| The intensity of sound | 120 dB |
| Supply voltage (±20%) | 12 V DC |
